Members Absent: Lin Metzger

The External Committee for School Counseling of the Professional Standards Board convened at 9:00 a.m. on November 6, 2002, at the Washington Township Community Building.

The committee received a draft of the portfolio chart that was started at the last meeting. The chart is divided into three parts--educational and career, student assistance, and leadership. Components, reflective questions, possible activities, and possible documentation were brainstormed. A majority of the school counseling portfolio will be identical to the teacher portfolio.

Brad and Peggy will attend the task force meeting tomorrow addressing the possibility of licensure as a counselor can lead to licensing as a special education director.

Next Meeting: Wednesday, 11, 2002 at the Wayne Township Community Building.
